IT'S A FACT

Near Wytheville, a car left the road and went down a bank, through a fence. The investigating trooper found the driver gripping a large blacksnake with both hands. He said it had suddenly crawled across his lap. Neither was hurt.

Last year, Wyoming reported 365 of the state's traffic fatalities were nonresidents. Alaska reported none.

In Wise County, a 61-year old man was comfortably settled in an outhouse of the Chic Sale variety when a car left a nearby road, knocked over the out house and injured the occupant.

In London, it is against the law to sound your horn when the car is stationary.

In Johannesburg, South Africa, a man was charged with the reckless operation of an elevator. The offense calls for a maximum $70 fine.

A New York state trooper investigated a crash in which a motorcycle struck the left front fender of a car. The lady driver of the car was so upset that she asked a friend to drive her home. One hour later, the same trooper investigated a crash involving the same car and another motorcycle, which had struck it on the left front fender.

Today in the Nation, a murder is committed on the average of every 43 minutes. A traffic fatality occurs every 9.3 minutes.

On Route 60, near theCharlottesville-Powhatan line, early one morning lately, troopers arrested a man, his wife and their son for speeding through radar. They were all on their way to work in separate cars.

Veterans in Georgia receive lifetime operators' licenses. Others must renew.

Idaho and North Dakota license 14-year-olds.

A bill now before the Senate would permit 103-inch widths for trucks instead of the present 96-inch maximum.

AMERICAN EDUCATION WEEK OCTOBER 24-30

Letter To The Editor

Route 2
Halifax, Virginia 24558
October 20-1971

The Editor
The Times Virginia
Appomattox, Virginia
Dear Sir:

I am supporting Mr. Bert Dodson for the State Senate. Some people say we ought to support the hometown boy,but I think we should vote for the best man.

Mr. Howard P. Anderson has stated that he is interested in education. If his interests do lie in this field, then why has he opposed most of the major education bills that have passed the General Assembly?

Why would an "educator" vote against the bill that requires parents to send their children to elementary and secondary schools?

Why did Mr. Anderson vote against providing state funds for kindergartens?

Why did he oppose the sales tax which has provided over $4.- 4 million to Halifax County and South Boston in the last five years? This money was earmarked for education only.

Why did he oppose the people having the privilege of voting on the bond issue for mental hospitals and higher education? Six community colleges were provided for in this bond issue.

Mr. Dodson has made a pledge to us, that he will use his "full and untiring efforts to the improvement and strengthening of public education in Virginia".

I think we should support Mr. Dodson with all our mind, spirit and heart.

As always,
Dianne Reeves
